SUMMARY

As a junior software developer and graphic designer with experience in various programming languages, libraries, frameworks, and design tools, I am passionate about creating innovative tech solutions. With a strong background in backend development, Git, technical writing, and graphic design, I enjoy exploring backend APIs, database development, intuitive, user-friendly interfaces, and writing clear, concise technical documentation.

SKILLS

- Languages, Libraries, and Frameworks: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, SASS, Ruby, Ruby on Rails, Python, WordPress, TypeScript, Node.js, Express.js, Postgresql, Graphic Design
- Technologies and Tools: Yeoman, Git & GitHub, Terminal, CMD, Canva, Figma, Inkscape, Adobe XD
- Currently Exploring: Nestjs, Angular

EXPERIENCE

Educator

Techlit Africa

January 2024 - September 2024

- I recently served as an instructor at a local community school in Kenya. This program was provided by a Non-governmental Organization called Techlit Africa to enhance digital literacy and promote the use of technology. I taught Graphics Design with tools such as Inkscape and GIMP, an introduction to data processing, and general computer operation

Freelance Developer & Graphic Designer

Suuef-Tech UK

August 2023 - December 2023

- I worked as a full-stack freelance developer and graphic designer at Suuef-Tech, a digital agency based in London, UK.

Information Communication Technology Intern

Murang'a County Government

September 2021 - November 2021

- Responsibilities included establishing network connections, expanding networks, troubleshooting and configuring systems, maintaining desktops and printers, installing software, and applying updates.

Assistant Manager

Kimamo & Sons

June 2020 - June 2021

- Promoted to Assistant Manager, overseeing hygiene, general cleaning, supervising employees, and ensuring efficient operations.

Cybercafé Assistant

Evanem Ltd.

January 2017 - September 2017

- Provided internet access services, document design, data management, sales, and technical instruction assistance.

EDUCATION

1. African Leadership X (ALX)

Software Engineering Bootcamp

2023 April - 2024 June

- This program taught Shell, C programming language, Python, JavaScript, SQL, and web development, both backend and frontend. I specialized in backend development
